# NEUROSCIENCE AND BEHAVIOR

## Program Overview

Majoring in Neuroscience and Behavior provides a solid foundation in biology, chemistry, physics, statistics, neuroscience and animal behavior. There are many choices for advanced courses in animal cognition, neurobiology of mood disorders, visual perception, and many more. There are opportunities to gain hands-on research experience through formal or informal projects in faculty member's laboratories.

### Student Involvement

- Alpha Epsilon Delta National Pre-Professional Health Honor Society
- Phi Sigma Biological Sciences Honor Society

### Internships and Research
