

We require specific vaccinations into order bring a horse in the UNH stable.

Vaccinations/Screenings for NH horses:

- A. Vaccinations: All horses must have current vaccinations for: Rhinopneumonitis and Influenza within **3 months** of arrival; EEE/WEE, Tetanus, Rabies, Strangles, WNV no less than 14 days and not greater than 1 year. In case of a regional outbreak of a specific disease, Horse Barn Manager may require boosters of any of the above vaccinations.
- B. Screenings: All horses must have a negative Coggins test dated within **6 months**.

Vaccinations/Screenings for Out of State Horses:

- A. Vaccinations: All horses must have current vaccinations for: Rhinopneumonitis and Influenza within **3 months** of arrival; EEE/WEE, Tetanus, Rabies, Strangles, WNV no less than 14 days and not greater than 1 year. In case of a regional outbreak of a specific disease, Horse Barn Manager may require boosters of any of the above vaccinations.
- B. Screenings: All horses must have a negative Coggins test dated within **6 months**.
- C. Certificate of Veterinary Inspection **required**.

I will need to see proof from your veterinarian of all vaccines/Coggins prior to shipping in. If I don't have vaccination/Coggins records your horse will not be allowed into our barn. Please fax or mail them to me for my approval. FAX# 603-862-3704
