

Subject: Your Name-Aquarium Biologist Interview Thank You

Dear Mr. Lewis:

Thank you for taking the time to meet with me today to discuss the Aquarium Biologist position. I was glad to hear more about Northeast Fisheries Science Center Science Aquarium and receive an opportunity to tour the facilities. After our meeting, I am confident I possess the skills and experiences necessary for this position.

As mentioned, my experience interning in an aquarium in the marine mammal department allowed me to develop hands-on experiences in animal care including training and marine mammal husbandry techniques. My past responsibilities of feeding harbor seals and assisting in training exercises will prove valuable in this role. Additionally, my communication with the general public and ability to engage an audience will be a useful asset to the Science Aquarium.

Thank you again for meeting with me today. I would be pleased to provide additional information about my qualifications or answer any additional questions the committee may have. I look forward to hearing from you soon.

Sincerely,

Your Name
