Program Overview

This major focuses on the study of living organisms at the biochemical, molecular and cellular levels. It integrates a popular and rigorous academic curriculum with extensive hands-on experiences to develop your technical and laboratory skills.

**Student Involvement**

- American Society for Biochemistry and Molecular Biology
- Phi Sigma Biological Sciences Honor Society
- Pre-Dental Society
- Pre-Vet Club
- Alpha Chi Sigma Co-ed Professional Chemistry

**Internships and Research**

- Shire Pharmaceuticals
- Bristol-Myers Squibb
- Biogen
- ArQule
- Broad Institute
- Sens Research Foundation
- Center for Disease Control

**Employment Areas**

- Federal and State Government Agencies
- Agriculture and Food Quality
- Healthcare
- Biotechnology/Pharmaceuticals
- Research Institutions
- Sales and Marketing

**Job Title Examples**

- Laboratory Technician
- Quality Assurance Specialist
- Research Assistant/Associate
- Manufacturing Associate
- Research Technician
- Environmental Monitoring Technician
- Quality Control Manager
- Clinical Research Assistant

**Where Alumni Are Working**

- Dana Farber Cancer Institute
- Pfizer
- Lonza
- Sanofi Genzyme
- Cell Signaling Technology
- Boston Children's Hospital
- NH Health and Human Services Division of Public

**Further Education**

- University of Massachusetts Medical School
- Pennsylvania State University
- Vermont College of Medicine
- Tufts University College of Medicine
- Boston University

**St. Martin Career Exploration Office**
