Listed below are several scholarships available to undergraduate/graduate students in the Department of Agriculture, Nutrition, and Food Systems. Eligibility requirements are given for each scholarship. The amount of the awards varies from year to year.

All application forms should be submitted by filling out the Scholarship Information Sheet. Deadline for completed applications is March 30, 2019.

**NOTE:** If a criterion of eligibility states that financial need will be considered, applicants must have an approved Financial Aid form on file in the Financial Aid Office.

**Robert P. Ahern Memorial Scholarship:** Associates of Robert P. Ahern, '38, established a scholarship in his memory for Animal Science majors. A former employee of Hubbard Farms of Walpole, N.H., he had a long and distinguished career serving the agricultural industry of New England, particularly in poultry. Awards will be made each year to upperclassmen majoring in Animal Sciences in the undergraduate school with preference given to students with an interest in poultry.

**C. Hilton Boynton Fund:** Friends, colleagues, and students established a fund in honor of C. Hilton Boynton, a distinguished dairy scientist who served UNH from 1945 to 1972. Dr. Boynton showed great interest in young people and in cattle improvement. He inspired young people through this 4-H activity and through counseling of students, while making outstanding contributions to the dairy cattle industry. The fund primarily supports dairy cattle judging trip by UNH students and also provides scholarships to animal science majors, especially those interested in dairy science.

**Thomas Fairchild Fund for Animal Science:** The "Thomas P. Fairchild Fund for Animal Science is established in honor of Tom Fairchild and his contributions to the University and the state. The fund is to support student scholarships, undergraduate research and experiential learning opportunities in the dairy program.

**Hubbard Scholarship Fund:** Oliver J. Hubbard, '21, of Walpole, N.H., presented a gift to UNH in 1976 to improve poultry and animal sciences education at the undergraduate and graduate level and for scholarship aid when desirable. All scholarship aid shall be granted on the basis of financial need, as determined by the Fund Committee for undergraduate and graduate students.

**Hubbard Poultry Fellow:** The Hubbard Farms Graduate Fellowship was established at the University of New Hampshire in 1951 with gifts from the Hubbard family of Walpole, NH. Hubbard Farms, Inc. of Walpole, NH traces its origins back to the first member of the Hubbard family to settle in Walpole in 1791, Levi Hubbard. It was in 1914 that Ira Hubbard began working with poultry on the Hubbard farm. This was carried on as a side-line activity of a general farming enterprise until 1921 when the son of Ira Hubbard, Oliver, graduated from the University of New Hampshire.
**Kenneth L. Isaacs Scholarship:** In 1961, Kenneth L. Isaacs of Walpole, Massachusetts, donated Hereford cattle to the Department of Animal and Nutritional Sciences. The income from funds generated by the sale of the animals is awarded annually to needy students especially interested in animal sciences, particularly livestock, and exhibiting competent scholarship.

**Kenneth S. Morrow Scholarship:** Alumni and friends of Kenneth S. Morrow, professor in the Department of Animal and Nutritional Sciences for 32 years, contributed to a fund in his honor in 1966. The income is awarded to a needy animal science major whose central interest is dairy science; scholastic ability is considered.

**Nutrition Scholarship Fund:** The Nutrition Scholarship Fund will provide scholarship support to students studying in the field of nutrition.

**Plant Sciences Scholarship Fund:** To provide scholarship support to students studying plant sciences including studies in horticulture.

**Loring V. Cy Tirrell Scholarship:** In 1959, friends and former students established a fund in honor of Professor Loring V. "Cy" Tirrell, a distinguished teacher for 41 years in the Department of Animal and Nutritional Sciences. Needy upper-class animal science majors with excellent moral character and sound academic achievement are eligible for awards.

**Charles A. & Florence Weast Stone:** A scholarship was established by Charles A. and Florence Weast Stone of Bow, N.H. Mrs. Stone, '30, taught school for 37 years, 32 in New Hampshire. Mr. Stone, a retired colonel and cattlemen, is active with students in the beef production program at UNH and has helped with many improvements for the Department of Animal and Nutritional Sciences. Recipients must have a grade point average of at least 2.0, or the equivalent. Financial need is not a criterion in making awards. All awards will be made in keeping with the Financial Aid Policy of the University. Preference will also be given to students who are residents of New Hampshire.
