

Are you interested in taking ANSC 402 – Horsemanship, but worried about the lab fee??

Thanks to our generous donors who participated in the 603 Challenge, the UNH Equine Program now has the ability to offer *lab fee support to one student per semester*. The intention of this award is to allow a student to enroll in ANSC 402 when they would otherwise be unable to participate in the course for financial reasons.

All majors are welcome to apply.

If you would like to apply to receive this award for Spring Semester 2023, please fill out the *Application for ANSC 402 Lab Fee Support* at:

OR <https://forms.office.com/r/ge5whw1a1M>.

Applications are due by 11:59 p.m. on November 13.

A panel of equine program faculty will review the applications and select the student to whom the award will go. Preregistration. Applicants will be informed of the panel's decision by the time ANSC 402 preregistration takes place.
