WHAT DOES YOUR FUTURE HOLD?

Thinking about your summer plans?

Follow the Animal Science [Facebook page](#) for all the latest summer internship and job opportunities.

Need to make some cash over the summer and think an internship is out of reach? Check out the [SOAR Fund](#) that provides stipends for unpaid summer internships. Applications are being accepted NOW! Apply today!

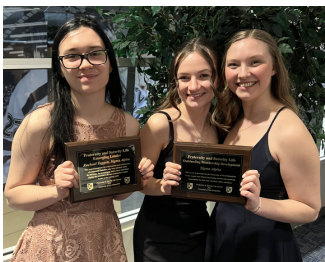

A SURF grant can make summer research possible. Read [this story](#) by ANSC major Maggie Hayes on her work studying skunk adenovirus with the NH Veterinary Diagnostic Lab!

Former ANSC graduate student [Katrina Klobucher](#) published in the *Journal of Animal Science* for her work with dairy heifers. K.N. Klobucher, R. Badger, T. Foxall, and P.S. Erickson. 2022. Short Communication: effect of sodium butyrate, monensin, and butyric acid on the viability of *Eimeria bovis* sporozoites and their degree of damage to a bovine epithelial cell line. *J. Anim. Sci.* 100:1-6. <https://doi.org/10.1093/jas/skac360>

ANIMAL SCIENCE STUDENTS TAKE THE REIGN (REINS?!) OVER OUR STUDENT CLUBS!

- Allison Holdsworth - President of the [Pre-Vet Club](#)
- Andie Majewski - President of the [Dairy Club](#)
- Diana Stover - President of [Sigma Alpha](#)

Get involved on campus to meet new friends, learn leadership and animal skills and get your hands dirty!

Sigma Alpha wins awards at the Fraternity Sorority Life Banquet!

ANSC major Rachel Taggett (pictured far left) won the Emerging Leader Award. ANSC majors Diana Stover, current president (middle) and Kelsi Devolve, past-president (right) accept the Outstanding Member Development Award on behalf of Sigma Alpha.

[CREAM](#) will begin recruiting in March! Interested in enrolling in 2023-2024? Contact [Dr. Conroy](#) for an application!

Looking for work right now?

The [Fairchild Dairy Teaching and Research Center](#) is hiring student employees to work shifts with the cows for the spring semester and the summer!

[Dr. Nancy Whitehouse](#) is hiring students to help with research projects at the dairy for the spring semester and summer!

Fun This Winter!

The Dairy Travel Course (ANSC 650) explored the dairy industry in Maine this J-Term. Students from UNH joined forces with peers from UCONN, UVM, UMASS and URI to tour farms, milk processing plants, cheese plants and IDEXX.

That's a wrap! PEEP (ANSC 605) grew a fantastic batch of chickens (check out those biceps brachii!). Sigma Alpha students helped clean out the high tunnels.
